Desalination Pipeline Bi-weekly Update

Carlsbad Construction Updates

This email is to keep you apprised of the Carlsbad Desalination Pipeline construction progress. We encourage you to share these emails with your employees and anyone who might be interested in work along the pipeline route within or adjacent to the Carlsbad Research Center.

Construction crews have completed the tunnel access points on Faraday Avenue at Van Allen Way and College Boulevard. Pipe installation crews have mobilized along Faraday Avenue, just west of Van Allen Way, and will begin pipe installation moving east through early May. Faraday Avenue will continue to be limited to one lane of traffic in each direction on the south side to ensure work area safety.

Additional Pipeline Construction Updates

As you plan your commute, we would like to keep you informed on other pipeline construction near the Carlsbad Research Center.

Faraday Avenue/Whitman Way Night Work

Construction crews have begun preparatory work along the north side of Faraday Avenue east of Whitman Way. Most of this work will be done during the day, but to ensure safety in some areas, crews will be conducting some open trench work at night. Daytime hours will be from 7:00 a.m. to 5:30 p.m., and limited night work hours will be from 7:00 p.m. to 5:00 a.m. beginning in late April. Stay tuned for detailed information about traffic control plans in the area.

Carlsbad Strawberry Company Open During Construction!

Strawberry season is here! The Carlsbad Strawberry Company's fields located off Cannon Road have been producing delicious berries for more than 65 years. To visit the strawberry fields, motorists should use the Paseo Del Norte detour as pipeline construction work continues on Cannon Road. Just follow the strawberry signage posted along the detour route.

Brought to You By

 **POSEIDON WATER**

Poseidon Water is a privately held company that specializes in developing and financing water infrastructure projects primarily seawater desalination and water treatment plants.

 **San Diego County Water Authority**

The Water Authority is a public agency serving the San Diego region as a wholesale supplier of water. The Water Authority works through its 24 member agencies to provide a safe, reliable water supply to support the region's \$191 billion economy and the quality of life of 3.1 million residents.

During construction, drivers should expect temporary lane closures, detours and reduced land widths, equipment along the route and should use caution and allow more time to reach their destination.

Construction updates will be shared on [Facebook](#), [Twitter](#) and the Project website. To learn more about the Carlsbad Desalination Project, please visit www.carlsbaddesal.com.
